# Our Community

## Get out there!

Levin Cycling Club has been a part of the community since before 1900. Members would meet at Weraroa Domain and ride on grass cycle tracks.

Facilities and cycles have improved, as have the surfaces to ride on. Club members now have the purpose built Bath Street cycle track, with floodlights for the winter months.

Levin Cycling Club is very community minded welcoming anyone with a passion for road or track cycling. All abilities are catered for, you don't even have to own a cycle as the club have some for hire. Clothing can also be borrowed from the Club.

Members of the Levin Cycling Club feature on a number of national competition circuits but not all members are competitive. Cycling

is a great activity for achieving fitness and can be very social, or very competitive depending on your passion.

Membership is \$20 per 6 month season. Weather permitting, on Tuesdays and Thursdays the Club meets at the Bath Street Cycling Track at 5.30pm. During the winter months, April to October, any bike can be ridden on the floodlit track.

The summer months are restricted to track cycling. Cancellation is posted on the Club's Facebook page.

Cycle for fun, cycle for health and if you want to, cycle for competition.

## Making the best of your hot water

Electra offers lower prices for allowing us to control your electric hot water during times of peak demand, we do this via a device attached to your meter board.

These prices are available because Electra is able to manage its peak demand Transpower transmission charges - and these savings are passed on to Electra customers.

Without load control, household power bills could rise.

During this time of year (but it can happen all year round) you might notice Electra enable Control of your electric hot water cylinders - generally between 7.30 and 9.30am and again between 5.30 and 8.30pm. In most cases you will not notice as hot water cylinders can hold their temperature for a long time.

If you notice a shortage of hot water outside the above times, we may have needed a longer control period or your hot water cylinder may be reheating.

**If you have a query, you can call us on 0800 567 876**

**Electra owns and operates the electricity network throughout Kapiti and Horowhenua.**

**Our owner is the Electra Trust. Electra's Trust ownership ensures that we deliver an annual electricity sales discount to all consumers connected to our network.**
